

# The HVACR Training Authority

Join Us For an

## RSES MEETING

AT

Hickory Hollow Restaruant

101 Heights Blvd.

Houston, Texas 77007

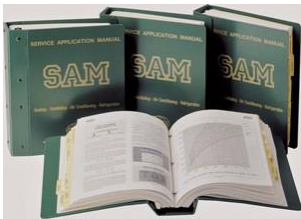

713-869-6300

February 7, 2017 6 to 8 pm

**This months educational presentation will be on Furnace Boards. Lisa Vasut with White Rodgers will help us understand OEM vs Direct Replacement vs Universal Furnace Control Boards.**

**To wet your appetite a little for the upcoming months we will have a class on sizing air filters, how improper filter sizing and selection can adversely effect blower motors including X-13 and ECM. We are also working on getting a motor tear down class as well.**

**And don't forget one of the benefits of RSES membership is access to tons of technical data and articles on [www.rses.org](http://www.rses.org) and a subscription to the RSES Journal.**

**Owners And  
Service Technicians  
Can Benefit  
With Membership!**

Join Us for an Informative Event and Learn How You Can Benefit By Membership in RSES, The Refrigeration and Service Engineers Society Established in 1933

### SAM Short for Service Application Manual

is the oldest living HVACR reference manual containing thousands of pages of technical data, equipment analysis and evaluations, field application instructions, regulations, good practice codes, business development guidance and more. Access to the hundreds of SAM chapters are a RSES member benefit!

Non-members welcome!

Contact Ben Huddleston CM ([k5ixi@hotmail.com](mailto:k5ixi@hotmail.com)) for meeting details

**RSES Houston Chapter meets on the 1st Tuesday of each month from September to May. You can check for upcoming dates/locations at <http://www.rses-swra.org/Houston.html>**
